Has been a beauty queen clashed with your personality?

Not at all, rather it has gotten me more exposed, connected, and relevant.

Any bad experience since you started modeling?

Well yeah I have had, being mocked, teased, for being the *Christian Model* because it was seen that I can't go far or may not survive in the modeling industry with such a name, niche, personality or brand unless I do the usual or normal modeling things. Also, most times I don't normally get full support from people I feel can help or sponsor me, because it's modeling.

How do you intend to use this your office to motivate other aspiring models?

I created and built a Multipurpose Platform both offline and online called "Mimi Reaches Africa" where young people are connected, coached, mentored and helped to discover their full potentials and talents in order to build a better Africa of our dreams; a platform through which I will create an Academy for modelling especially for the Christian populace who ignorantly believe that models are candidates of Hell Fire. It will be a platform to be organizing workshops, symposiums and seminars to hunt for Christian talents that are wasting away in the Church and others; a platform that will reach out to the girl child and educate her; and a platform for Agricultural Reforms in Africa, Business Summits and Innovative Technology.

BILLIE SMOLSY

Billie Smolsy came to our Melbourne studio back in 2017 for her first ever photo shoot. Right away we recognized huge modelling potential in the Ballarat-born beauty. She was a complete natural in front of the camera and took direction from her photographer Hana like she had been modelling for years. Billie Smolsy has since gone on to sign with IMG Models and is on her way to becoming a global superstar!

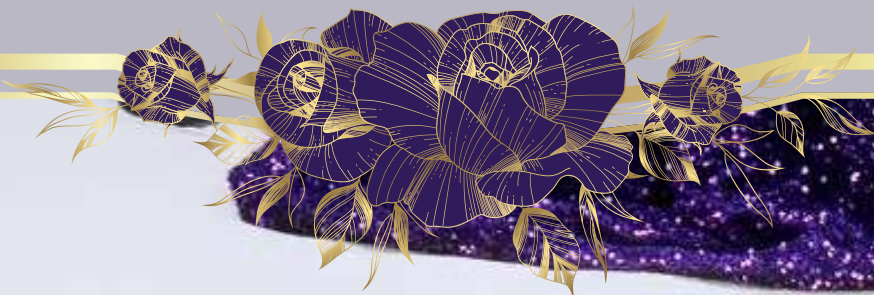

CHARLOTTE ALLEN

I came across Teen Model Australia on Instagram and noted that many other teen models follow them. They showcase teens and tweens on social media and in their magazines in a great positive light. It's a competitive industry, but they have a supportive and age-appropriate vibe. They hold regular competitions and know a lot about the industry. By being selected as one of their ambassadors, I hope that I will grow my network and be noticed within Australia and maybe even overseas!

INTERVIEWING TIPS FOR A MODELING CAREER.

Working through an agency is the most common way for a model to get work. Doing well in a modeling interview is key to getting your foot in the door. Whether you were contacted by the agency or are going in on your own accord, you need to present yourself in the best light to make a lasting impression. This means you'll have to rely on more than just your good looks to ace the interview. Prepare with our interviewing tips for a modeling career!

Do Your Research

Research the agency, so you know what kind of models they represent as well as what their body style, portfolio, and other requirements are. This ensures you fit the criteria and are well-prepared for the interview. Many agencies put this information on their website, but you can also call them.

Prepare a Portfolio

A portfolio is one of the most effective tools an aspiring model has. Agencies may specify the number and type of photos you need to have in your portfolio. The minimum is generally one portrait photo and one in upright body position. You can also include simple poses such as sitting, profile and looking over your shoulder. You usually don't have to smile, but you may wish to have some pictures with varying facial expressions to show versatility. The clothing you wear should be tight-fitting, such as swimwear, tank tops, and skinny jeans. Do not wear any make-up in the shots, as the agency needs to see how you look completely natural.

Prepare a Resume

This document provides the interviewer with the most pertinent information about you at-a-glance. It contains information on your past modeling work, any training as an actor or any awards. Also a list of shows or publications you've appeared in, as well as any educational background you have in fashion or a related field. You can also include your body measurements, including height, weight, bust, waist, hips, inseam, dress size and shoe size. Some agencies though require you to put this information in a separate document called a "comp card".

Take Care of Your Appearance

Your hair, nails, and skin must be clean, neat and free of blemishes. You will want to look as natural as possible, so use a sparing amount of make-up. This may include a little bit of foundation, mascara, eye shadow, and lip gloss.

Practice Modeling

The interviewer will assess how well you pose and walk, so practice beforehand to make sure you've at least got the basics down. Watch videos and look in magazines to get ideas for poses, facial expressions and how to walk a runway. Try things out in a mirror to make sure it looks good, then ask family members and friends to watch and give you some pointers. Practice maintaining your composure in any situation.

Think of Answers to Common Questions

Modeling interviews usually involve some standard questions. These most often include questions about how long you've been modeling, any especially notable shows or publications you've appeared in. It may also be about the type of modeling you want to do (e.g. commercial, fashion, etc.), and why you want to work with that particular agency.

7 STYLING TIPS FOR CURVE MODELS

2. Define your waist

Cinching waists helps to project a slimmer waistline and provides an hourglass figure. It is recommended to wear high waist belts for shorter people, as it will elongate their overall appearances and make their legs look longer. Tuck the belts with loose fitted fabric to avoid the “bulging effect”. Avoid wearing thick belts as it can bring attention to the width of a person, which completely defeats the purpose of the cinched effect.

3. Avoid rounded toe shoes

Often rounded shoes can have the impact of making anyone look shorter. A look overall can be elongated by wearing pointed or open toe shoes. This will make the legs look longer and well-balanced.

4. Utilise strategic Patterns

Patterns can be a tricky matter when it comes to balancing an overall look. Bold coloured, thick patterns can give the impression of a different body size and can bring attention to the wrong body parts. Whereas, smaller and darker coloured patterns can complement the style and the form. For example, smaller polka dots can make the figure look a lot more flattering than bigger ones.

5. V Necks are the Best

V neck tops can elongate the appearance of the waist. V neck tops can help direct focus from any problematic area to the bust area. This can also make the look more feminine and playful.

6. High Waist Bottoms compliment anyone's figure!

High waisted pants or skirts with pointed or open-toe shoes are often great pairs that elongate the look, beautifully. To complete the look, wear a semi-fitted top which ends on the waistline if not slightly under.

With the modelling industry adapting and changing every day, the demand for curve models is increasing. The “body positivity” movement has prompted agencies and industry to start to embrace bodies of all shapes and sizes. Therefore, everyone has a chance to celebrate their bodies, both in and out of the industry!

With the curve modelling sector growing and changing, so is the clothing industry and people are becoming a lot more aware of what clothing suits their body type.

1. Ensure you get your sizing right

It is important to wear the “right size” clothing. Try avoiding wearing sizes that are too small for the body, as it accentuates the wrong areas. On the other hand, wearing loose clothes can make you give a wrong impression of your overall body structure and sizing. The better the sizing, the more flattering it looks. That being said, when shopping feel free to try out different sizes of clothes, as a lot of brands are known to have different clothing sizes under the universal size numbers.
