WHAT IS CHILD MODELING?

THE COMPLETE GUIDE TO CHILD MODELING

Child modelling is when your child's image is used to promote a commercial product or service either in print or digital form. It also includes live runway shows and appearances. In a nutshell, it's when a company pays for the privilege of using taking your child's photos and using them to promote their brand.

Some parents see it as the ideal stepping stone for a child interested in a career in the entertainment or fashion industry while others think of it as a way to save a little money for their child's future.

Whichever category you fall into, it's vital that both you and your child understand the ins and outs of the industry. So take some time to read through the information below before deciding to take any further steps.

Is My Child Suited to the Industry?

This is an incredibly important question that either parents or teen models must ask themselves because let's face it; not everyone is suited to a life in front of the camera.

And believe it or not, we're not just talking about good looks, great teeth, and a clear complexion. A child model's confidence and attitude can be just as important.

It's lots of hard work

Some parents and models have told us how surprised they were to learn that modelling takes so much effort. They thought they would just roll up to the shoot, take some photos, and be on their way home in the space of an hour or two.

This is rarely the case as shoots often involve multiple wardrobe changes, background changes, and several hair and makeup sessions. So yes, it can get very tiring.

Rejection can be hard to take

Rejection is something that is unavoidable in this industry, and it happens a lot. Everything depends on what the company or photographer are looking out for, and if a child doesn't have it, then they won't get the gig.

It's nothing personal but for some children and parents, the rejection can be hard to take. This is particularly true for teen models who are much more involved in the business side of their career.

Both parent and child need to be able to deal with this and know from the outset that rejection will happen.

Building Your Portfolio

A child model's portfolio is hugely important to their chances of success. Without one, the agency cannot put them forward for work while a poorly photographed portfolio is just as damaging.

This is why many agencies require that you have a professionally photographed portfolio. Believe us when we say that unless you are a professional photographer, this is not something you want to do by yourself.

Your agency will often have a few local photographers that they can recommend while some may even require you to use a particular studio or photographer. Don't be surprised if this sets you back a few hundred dollars so be prepared to spend.

POSING TIPS FOR KID MODELS

Strike a pose! This famous lyric also happens to be one of the biggest elements to being a model. Posing is a skill that all models will need to have, and one that is certain to be expected of them. Regardless of age, posing for a photoshoot is simply part of the job description. When starting out as a child model, your child will have to practice posing in order to get better and book more jobs. There are many ways to become better at model poses, so we're mentioning just a few of the ways your child can improve their posing skills.

Practice at Home

Although 'practice makes perfect' is a cliché, it still rings true when it comes to modeling. The more your child model poses at home and practices different strategies, the more comfortable they will be doing so in an audition or on a job. The key is to constantly be snapping pics of them while they are practicing so they can see what they need to improve on. Maybe they make an uncomfortable face when in a specific pose, or maybe their arm isn't bending the way it's supposed to? The only way to fix these is by practicing and working to improve their posing skills.

Copycat

One of the great ways to learn new poses while practicing at home is to take a bunch of fashion magazines and try to copy the poses that professional models are making. Look at the top models who are at the top of their game, and have your child work at copying the best in the biz. This allows them to add more poses to their repertoire which will make them even more bookable. Again, make sure to take pictures of them practicing these poses so they can see where they need to improve.

Action Shots

Action poses for action shots are a big part of child modeling. If they are looking to book with sports apparel brands then they'll need to work on their action poses as well. This will take a little more work because usually it involves movement which can be hard to emulate. The best way would be to take pictures of them as they are playing a sport of some kind and then try and copy the natural action pose they are making while playing the sport. For example, during a soccer game snap as many pics as you can of your child running, kicking, sliding, etc. Then when you get home have them practice those specific poses.

Keep Moving, But Slowly

You'll want your young child model to keep their poses moving and alive — yet for the photographer's sake, they should be changing their poses slowly. Aim to switch positions every three seconds, that way whoever is shooting them will have ample time to capture what mood they are trying to express with each pose.

Listen to the Photographer

One posing skill that any child can learn is to take direction. This also happens to be one of the most attractive qualities a model can have. When a child model learns to listen to their photographer, the shoot will go much more smoothly — which will mean booking more jobs in the long run. Another tip, when looking directly at the camera, have them practice looking behind the camera, this creates a more natural and candid look.

Your agency will often have a few local photographers that they can recommend while some may even require you to use a particular studio or photographer. Don't be surprised if this sets you back a few hundred dollars so be prepared to spend.
